

JMAXX

Locomotive Batteries

Introducing our JMAXX ELITE POWER Locomotive Battery.

Todays locomotives need more power than ever before. Our JMAXX Elite Power battery is the same size battery with 22-25% more output than our standard battery.

With over a decade of experience providing locomotive batteries, we have created a true locomotive "Starting Battery" with the longer endurance of a deep cycle battery.

JMAXX Standard Battery

	JMA-U519	JMAU525
Volts	32	32
